Product Applications

The MS52BA2 is a jointed articulating flex-arm type stand with holster for use with the Dino-Lite hand held digital microscopes. The precision machine crafted components provide smooth adjustment and unlimited horizontal positioning in a well balanced ergonomic design. The MS52BA2 can be easily clamped onto and secured to any workstation or table top. Manufactured from durable, lightweight recycled aluminum and able to be folded flat makes the versatile MS52BA2 stand conveniently portable.

- MS52B Base
- Holster
- Velcro

Additional Information:

The holster keeps your Dino-Lite digital microscope steady with virtually unlimited positioning.

The upper layer tilts 90 degrees and the holster rotates 90 degrees. Positioning made easy by moving the control arm to rotate 360 degrees and vertical 180 degrees. Opening the clam allows you to adjust the length of the stand and the ability to rotate the inner tube. The arm is sleekly colored in silver and black.

The unique tooth-lock joint holds securely at any angle. The pedestal is designed for quick release and rapid assembly.
